mCLASS Lectura - Beginning of year scores for determination of Grade Level Reading Competency

Per House Bill 15-1323, an allowance for districts to choose to administer a READ Act interim assessment for students demonstrating reading competency once at the beginning of the school year and not again until the following school year if students reach the defined competency scores. This score would indicate that the student is already well above grade level expectations and will remain above grade level expectations for the remainder of the school year.
